MESSAGE

I am delighted to learn that the Indian Technical Textile Association (ITTA), supported by the National Technical Textiles Mission, Ministry of Textiles, Govt. of India, in partnership with the Wool Research Association, is organizing the National Conclave on Sportech - 'The Future of Sport Textiles and Accessories Industry in India' on 2<sup>nd</sup> June, 2023 in New Delhi. The initiative supports the growing importance of sports textiles, sports goods and accessories and its enormous growth opportunities in the domestic and export markets.

India's textiles sector has witnessed considerable investment and growth stemming from its robust manufacturing and export base. The sector has recently moved up the value chain and has diversified into Technical Textiles. It has emerged as a highly promising and sunrise segment with its higher-value products and extensive applications across end-user industries. India's technical textiles sector has a huge potential to contribute significantly to building a new & developed India by 2047. Sports textiles in particular have high growth opportunities driven by the aspirations of our growing population of youth and increasing demand for active-wear products in view of increasing health consciousness.

I am hopeful that this conclave will open a roadmap for strengthening the entire value chain of the domestic manufacturing and export segments of the sports textiles and accessories sector. It will also help to evolve and fulfill a vision for developing a dynamic and sustainable Indian sports textiles and accessories industry which will be in line with the Hon'ble Prime Minister Shri Narendra Modi's vision of 'Make in India for the World' and building an 'Aatmanirbhar Bharat'.

I congratulate the Ministry of Textiles and ITTA for jointly organising this conclave and wish the conclave a grand success.

Piyush Goyal

### **MESSAGE**

Indian Technical Textile Industry has been recording exhilarating growth across its various application areas based on its functional use and performance parameters. Technical textile usage in Sport textiles as sportswear, sports gear, sports goods and accessories has also been steadily increasing with innovations in raw materials and basic inputs, cupping with technologies. Indian sportech industry is driven by the overwhelming interest of our youth in sports activities and the increasing interest in health and fitness across the population in the country.

Indian sportech industry needs nurturing with specific and focused initiatives by strengthening self-reliance in domestic manufacturing of advanced basic raw materials, inputs and processes, high quality products. Equally important is to encourage to bridge gaps in technology and machinery development, supported by research and innovation. Concerted efforts of all the stakeholders including the Government will help to build a vibrant sportech ecosystem, will help grab growing demand.

I am certain the Sportech conclave will facilitate all stakeholders to interact with industry and policy makers closely and help to evolve policy measures to be addressed urgently.

I sincerely appreciate the Indian Technical Textile Association (ITTA), the National Technical Textiles Mission (NTTM), Ministry of Textiles, Govt. of India, and the Wool Research Association (WRA) to this initiative and organizing the NATIONAL CONCLAVE ON SPORTECH - "The Future of Sport Textiles and Accessories Industry in India" on 2nd June 2023 in New Delhi. I wish all the very best to all the participants, speakers, exhibitors and industry leaders, sourcing and procuring institutions, research bodies, brands and decision makers.

## MESSAGE

Indian Technical Textile industry's growth has been extremely encouraging with coherent policy initiatives and involvement of all stakeholders. It is heartening to see that this sunrise sector is moving towards developing a sound ecosystem with focus on innovation, research and skilling supported under the National Technical Textile Mission (NTTM) of the Ministry of Textiles as well as investment initiatives under the PLI scheme and the PM-MITRA Parks scheme.

I am confident that the continued policy thrust combined with industry's efforts towards achieving self-reliance in technical textiles will help India attain the position of a global leader in this high value and high growth textile segment.

Sports textiles, an import segment of technical textiles has huge growth prospects in India and there is a steady increase in domestic consumption driven by the sporting aspirations of our youth and health-conscious population and equally supported by initiatives and schemes of the Government like 'Khelo India'.

I sincerely appreciate the initiative by the Indian Technical Textile Association for organizing the NATIONAL CONCLAVE ON SPORT TECH - "The Future of Sports Textiles and Accessories Industry in India" on Friday, 2nd June, 2023, in New Delhi, supported by the National Technical Textiles Mission, Ministry of Textiles, Government of India, in partnership with the Wool Research Association. This initiative is timely in view of the increasing importance of sports textiles, sports goods and accessories and enormous growth opportunities in the domestic and export markets.

The Sports textiles conclave will help in focussing on indigenization and building synergy among stakeholders and promote new joint ventures in product innovation, advanced raw material availability and strengthen the growth of this segment with high quality, durable and affordable products. I am confident the deliberations and recommendation emerging from the Conclave will help our collective efforts towards achieving high growth in this segment.

I extend my best wishes for the success of the National Conclave on Sport Tech.

29<sup>th</sup> May 2023**MESSAGE**

Indian Technical Textile industry has been recording 10 per cent annual growth with penetration level increasing to now 10-12%. Concerted efforts are being made by the Government with focused policies like the National Technical Textile Mission (NTTM), PLI and PM-MITRA to enhance the consumption and exports of this high potential functional and high value textile segment. NTTM focuses on self-reliance and indigenization with a long term perspective. The mission has four components viz. Research and innovation, Market Development, Export Promotion and Education Training & Skilling and thus it addresses the weaknesses of this sector.

The NTTM is focusing on the entire 12 segments of the Indian technical textile industry with dedicated initiatives for encouraging industry for investments in critical raw materials, Research, Development and innovation, training and testing, quality up-gradation and awareness generation among the stakeholders. It is heartening to note that these initiatives has created vibrancy and revived the entire value chain of these high potential segments and driving the Indian Technical textile industry to become a global leader.

Sports textiles is one of the important technical textile segments having high growth potential, stemming from the high demand for active wear and sport wear products mainly driven by the increasing sports activities, aspiring youth and health-consciousness powered by encouraging policy initiatives of the Government for creating a healthy sports culture among the masses.

Presently it is important to strengthen the entire value chain of the vibrant Sport textiles and accessories industry with focused initiatives for encouraging the entrepreneurs for developing a fast-growing, self-reliant, and high quality sustainable Indian Sporttech industry.

Considering the importance of this sector, the NATIONAL CONCLAVE ON SPORTECH - "The Future of Sport Textiles and Accessories Industry in India" is being organised by the Indian Technical Textile Association (ITTA), under National Technical Textiles Mission (NTTM), Ministry of Textiles, Govt. of India, in partnership with the Wool Research Association (WRA), on Friday, 2nd June, 2023, in New Delhi.

The conclave will give ample opportunities for all the stakeholders of the Sport industry to have continuous dialogue and close interactions and come out with recommendations for bridging critical gaps and strengthening the entire value chain of the Sport industry so that it can have a seamless growth path and will be able to face challenges from competition and help to strive for realizing the goal of a self-reliant Indian sport textiles industry, leading to attain new heights in growth & exports.

# **NATIONAL CONCLAVE ON SPORTECH - The Future of Sport Textiles and Accessories Industry in India**

**2nd June, 2023 | Venue: Hotel Shangri-La Eros, New Delhi**

## **ABOUT SPORTECH**

## ABOUT SPORTECH

The Sports Industry in India comprises of apparels, sports nutrition, sports equipment, etc., which is likely to grow five times to reach a market value of \$100 billion by 2027 from \$27 billion in 2020. The Indian Sport apparel market was worth \$14 billion in 2020 and is estimated to grow to \$21 billion by 2023, largely growing on the back of menswear products. India's domestic Sportech market is dominated by the Sports Footwear Components category which covers more than three-fourths of the segment's market share. The Global sports and active wear Market is growing at a CAGR of >5.0% during FY 2019-2023 and is projected to reach US\$149 Billion by 2023, which will help Indian Sportech industry to grow rapidly in coming years.

List of Products under the Sportech segment are --

- ❖ Sports Composites
- ❖ Artificial Turfs
- ❖ Parachute Fabrics
- ❖ Ballooning Fabrics
- ❖ Sail Cloth
- ❖ Sleeping Bags
- ❖ Sports Nets
- ❖ Sport Shoe Components
- ❖ Laminated Tents
- ❖ High Performance Swimwear & Sportswear
- ❖ Sport Strings

Within the above broad segments, there are a wide range of sub-segments, approximately 318 items, which are manufactured by the Indian sports goods industry. Latest manufacturing technologies such as- Nonwoven, knitting, weaving, coating, lamination and composites are used to produce sports goods

and accessories. Different kinds of raw materials are also used, polyester, nylon fibres and their blends, carbon, PVC & PU laminated/coated fabrics, etc.

Sports products can be grouped under following broad categories depending on their use in various kind of sports -

- ✦ Sports textiles are wearable textile products that improve the performance characteristics of the athlete at the moment of activity. Many products such as sports jerseys, socks, gloves, shoes and training clothing are examples of this class.
- ✦ Sports goods are the products which are required for the type of sport based on its own characteristics and rules e.g. Volleyball, basketball, soccer balls, hockey sticks, cricket balls, golf sticks, badminton and tennis rackets.
- ✦ Sports accessories are nets, artificial turf, parachute equipment, sleeping bags, tents, strings, ropes, mountaineering equipment and sail cloths.
- ✦ Protective equipments for cricket comprise leg-guards, batting gloves, wicket keeping gloves, thigh pads, helmets, caps, and hats, cricket kits bags, etc. Boxing equipment like boxing gloves, punch bags, etc.

There is huge scope of developing innovative products in Sportech segment. For example, lightweight & strong composite hocky & golf sticks, tennis & badminton rachets are being developed through composite technology. Even cricket bat is another example and many other products as well. In short Sportech segment has a huge potential to grow.
